## Present Land Use/Zoning/General Plan Use

Agricultural use is the dominate land use of the project area. New residential and commercial developments are planned in the eastern portion of the project area, within Placer, Sutter, and Sacramento counties.

## Project Description

The Project being proposed by Pacific Gas and Electric Company (PG&E) is to construct an approximately 40-mile, 30-inch diameter natural gas pipeline (Lines 406 and 407) from the Esparto area in Yolo County east to Roseville in Placer County. The proposed pipeline will provide greater capacity and service reliability to the existing gas transmission and distribution pipeline system in the Sacramento Valley Region and will deliver natural gas directly to an area of anticipated growth.

Note: Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. from a Notice of Preparation or previous draft document) please fill it in.
